

ROHONE® 成航

Hebei ChengDa HuaMo Technology Co., Ltd.

ROHONE ®, as well as **ROHONE** ®, is another brand series belonged to Cheng Da Pipes. All FRP membrane housings are manufactured from imported material and finished through special processing technology. The applicable working pressures are 300 PSI and 450 PSI. It can be capable of building in membrane elements from 1 section to 7 sections.

Cheng Da ROHONDE membrane housing.

1.100% quality assurance test with 1.2 times stage elevation of hydrostatic pressure.

2. Quality Assurance

- a) Burst test with 4 times of its design pressure.
- b) Fatigue test of 100,000 times without damage.
- c) High sealing pressure performance.

8" FRP membrane housing are available in three types:

- **R80A300S**
- **R80B300S**
- **R80S450**

R80A300S 8" FRP membrane housing with grooved aluminum alloy end cap.

Grooved Aluminum Alloy End Cap

R80B300S 8" FRP membrane housing with ABS end cap.

ABS End Cap

[R80S450]

Solid Aluminum End Cap

Specification

Material	Fiberglass and epoxy
Process	Winded
Working Pressure	300 PSI, 450 PSI
Connection	Side port
Element Length	40" × (1-7)
Operating Temperature	-10 °C to 49 °C
Operating pH Range	3-11
Cleaning pH Range	2-12 (≤ 30 min)
Certificate	ISO 9001:2000
Color	Original or customized
